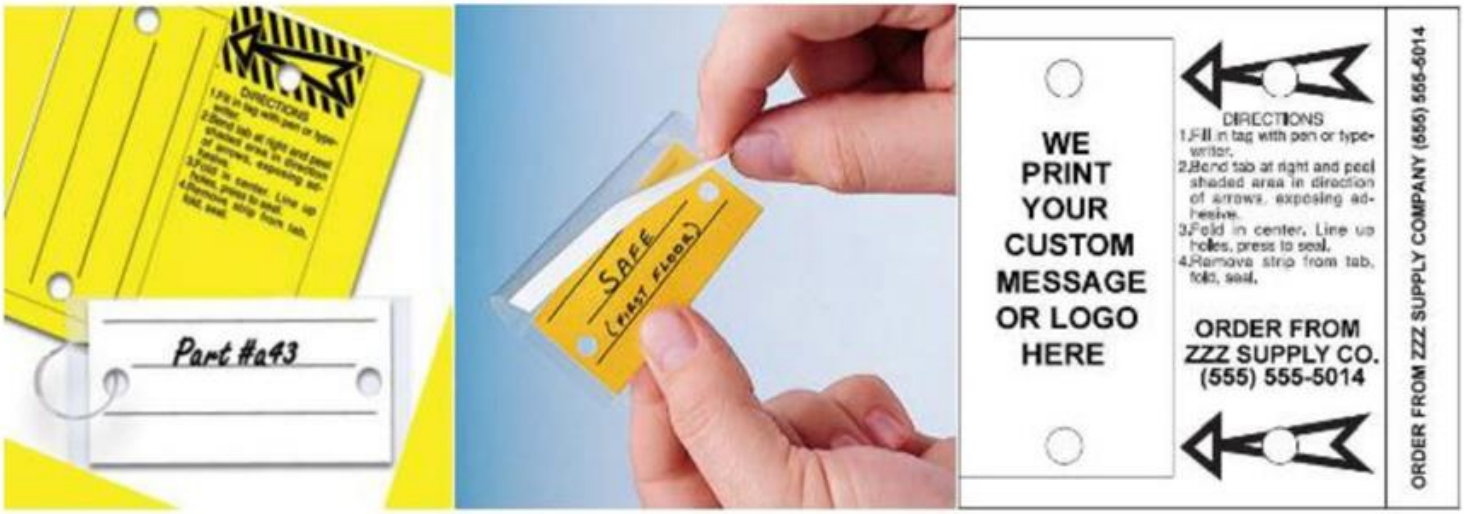
CUSTOM PRINTED INDUSTRY TAGS



Custom Printed Industry Tags have been used in many different industries including the Automobile & supplies, Real Estate, Construction, Commercial, Industrial, Agricultural, and Special Events & Retail for years. The polyester laminate keeps the tags fade, water, dirt, & grease resistant. This allows the tags to be used in a variety of uses. They can be used as identification tags, key tags, inventory tags or for any other use that fits your specific needs. The heavy-duty cardstock is supplied with pre-punched holes and steel-plated rings. The tags measure 1¼" wide X 3" high when folded. Fill in your own information on your pre-printed tag, peel off the paper liner to expose the adhesive laminate, and fold over to seal and protect. Each box comes with 250 tags & rings.
